

# Jason Perry

I am a motivated and personable developer with a strong foundation in information systems and web technologies. I hold a certificate in IT Systems Development, which has provided me with practical experience in modern frameworks, as well as tools like Figma and WordPress. Although I have limited formal industry experience, I am a fast learner who is eager to contribute and grow within a professional team. I adapt quickly to new environments and workflows and am committed to continuous improvement while delivering thoughtful, high quality work.

## Personal Info

- +27 83 370 2032
- perryjason2005@gmail.com
- Gauteng Meyerton
- www.novalis.co.za

Nationality

South African
